DETAILED ACTION

Allowable Subject Matter

1. Claims 1-72 are allowed.
2. The following is an examiner's statement of reasons for allowance: The closest prior art teaches the invention essentially as claimed but does not teach removal of any part of the casement after bonding. The casement is typically part of the finished structure. See Smith (USPN 2085277) and Ivanov (US 2004/0035698 A1). Conventionally, multiple targets are placed in a single recess rather than in multiple, separate recesses. See Fukusawa (USPN 4966676) and Sawamura (US 2002/0185369 A1). Annealing generally takes place before bonding rather than after and there was no disclosure of both vacuum sealing and annealing which would change the microstructure and properties of the final product. See Kulkarni et al. (USPN 6283357).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Demaray et al. (USPN 5565071, no annealing), Hunt et al. (USPN 6599405 B2) and Ueki et al. (US 2003/0173064 A1).

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lynne Edmondson whose telephone number is (571) 272-1172. The examiner can normally be reached on Monday through Thursday from 6:30 a.m. to 5 p.m.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Tom Dunn can be reached on (571) 272-1171. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
